

*Hegel's Science of Logic and Phenomenology of Spirit including the
Encyclopaedia and Natural System (1871, Paris Commune Comments)
By Karl Marx*

- I. *Paris Commune - Being, Essence and Concept - the Idealist
Blanquism of the Future of Tactical-Strategic Dynamics of the
Concept becoming involved in the Materialist History which is
Radical I imagine but can be Jewish instead - Perhaps a more
Letterly Process afterall.*

*Imagine the Quranic Prophet - he is simply a nominalist Quran aspect of
the religion, relegated and ditched out of the religion, he becomes a
Jewish genius and is also a Christian Franciscan reader of arcane works of
the Bible - something like picking the right fruit which he studies in
meticulous botany to prove medicines and eternal life afterall.*

Now imagine these wild Blanquists - Lenin, and the lot.

*Busy insurrectionally reading the future which then is conceptual
movements and intellectual sophistication getting involved in the inspired
leadership of an already Commune process which they want to then
discipline into a trade union nay but insurrection of the state.*

The state is actually just the law and elections which has to take note of -

Being - Essence and Concept as -

*Materialist history, contradictions which are sharp and in fact Concept as
Jewish faith.*

II. Future Prophecies

*I will be in a painting, lost to Israel as their loss but present and against
rebirth.*

*Others will be resurrected by the Prophet of Israel - Jewish genius Sirohi. I
think that's his Jewish name after Shomit Sirohi.*

*I mean though the whole development of materialism amounts to this
funny fragment on the machines - it is that utopian he reminds the dead
spirits of all philosophers and politicians.*

*Utopia is an immanent tzim tzum which is every day the general strike -
which is simply the trade union activism itself to of course give it a party
in elections, just that is insurrection you Blanquists.*

Poetry is belonging to the women and lovers in free love - the only correctness of Leninists.

Sirohi is flowing in love with Blanquists.

Essence - Clinamen - Appearance - but al in the mind he means.
